Questions?: info@sustainablemorsepark.org

****As a state of Colorado certified and registered material recycling facility, 3R Technology Solutions abides by all Federal, State, and Local laws and regulations. Sensitive personal data contained in hard drives and data tapes will be deconstructed at their facility with that process video documented. You may also choose to erase your hard drive first. According to Costco Connection from April, 2020, "use free software such as Eraser and CBL Data Shredder to properly erase your hard drive. A "factory reset" or "restore" should be fine for cell phones and tablets."**
